Pleasure Crust

Great taste, firm bite and crispness.

Deco Quick® Pleasure Crust provides a wide range of applications for meat and sausage products.

Applying the crispy and flavorsome crust to the meat product is very easy, fast and cost-efficient. It can be used with or without a fat-layer.

Cheese

With Deco Quick® spice-foils and spice-casings the cheese products are getting an optical and tasteful finishing.

Only the best herbs and spices are used for our Deco Quick® products.

No matter, which taste, with Deco Quick® cheese products can be graded up simply, rapidly and reliably.

Raw cured meat products

Deco Quick® will give raw cured meat products a particularly fine taste and ensure they look good.

Seasoning does not fall off, even when cut into thin slices.

Vegan and vegetarian products

Of course, Deco Quick® coatings are also ideal for adding that finishing touch to vegetarian products such as meat-free pâtés and deli products, as well as vegan specialities (such as vegan cheese).
