WIBERG

GEWÜRZMÜHLE NESSE

Gewürzmüller

Highest quality – comprehensive service

In this catalog we present the assortment of the brands WIBERG, Gewürzmühle Nesse as well as Gewürzmüller. Since 2023, these brands operate under the umbrella of NovaTaste. All brands share a passion for high-quality spices as well as innovative ingredients for butchers, meat industry, convenience, and gastronomy. Highest quality, comprehensive service and competent advice are a big matter of course. We observe trends, develop innovative products, and respond to market requirements. At the customer's request, we create tailor-made individual solutions.

Founded in Austria in 1947, **WIBERG** stands for technological expertise in the production of meat, sausage and convenience products worldwide. High-quality sausage casings and innovative Deco Quick® spice coatings complement the company's knowledge of international taste worlds.

Gewürzmüller embodies traditional craftsmanship from Germany and has done so since 1896. With a wide variety of tastes, you will find indispensable classics of the butcher's assortment as well as creative variations from all product categories that have delighted generations of customers.

In the immediate vicinity of major North Sea ports, **Gewürzmühle Nesse** has specialized in providing taste and function for unique fish products since 1880. Another focus is on high-quality organic products that convince with the best quality and strictest controls.

-  Pure Spice: only spices give the product its taste profile
-  naturally vegan ingredients

-  no added palm fat
-  functional ingredient
-  NovaTaste product
-  Gewürzmühle Nesse product
-  Gewürzmüller product
-  WIBERG product
-  BITEC product

Allergen labeling

Food knowledge offers security

The EU Regulation from 2011* on the provision of food information to consumers aims to standardise food labeling across Europe and to provide consumers with all the information that they require. As of December 2014, guests must be informed of the 14 key allergens specified by the EU.

1		Eggs
2		Peanuts
3		Fish
4		Grain containing gluten
5		Crustaceans
6		Lupins
7		Milk
8		Nuts
9		Sulphur dioxide and sulphites (>10 mg SO ₂ /kg oder l)
10		Celery
11		Mustard
12		Sesame seeds
13		Soy
14		Molluscs

Where applicable, you'll find the numbers corresponding to the allergens throughout the catalogue in the „symbol“ column.

*Regulation (EU) No 1169/2011 of the European Parliament and of the Council of 25 October 2011

Our Services at a glance

Are you interested in our products and services? We are your partner for customer-specific solutions – simply ask your contact person!

Quality Our guiding principle

We define ourselves through the high quality of our products; they provide us with the incentive to offer our customers optimal solutions. You can recognize the importance of this claim in every step of our work, from incoming raw materials inspection to the finished product - a team that works hand in hand!

Food laws and legislation Paragraphs made easy

We will be happy to advise and assist you on issues concerning food labelling and identification as well as the design and verification of product labels and declarations. Do you need reports, certificates or simply competent support in the complex field of food law for your production or further processing? Please contact us for confidential advice and support. Whether with RSPO-certified palm oil or marinades without added palm oil – you have the choice.

Fachberatung Service hat ein Gesicht

Our creative butchers, technologists and application specialists can together provide support at any time with efficient, innovative and individually tailored product solutions, practical tips in the field of industrial manufacturing processes as well as manual applications.

Laboratory At the heart of the best quality

In our in-house laboratories, we use a wide range of chemical and microbiological analysis methods. Every single raw material has its own individual, risk-based test plan. This means the company's experts don't miss anything when it comes to safety. Our independence from other laboratories means that we can act quickly and efficiently according to the situation at hand.
